5200

The Most Flexible Solution for High-Volume, High-Value Transactions

Nautilus Hyosung is proud to introduce the latest addition to the retail family – the 5200. *The* 5200 *delivers maximum service and security for retail locations with large transaction revenue potential, combining the usability and maintainability of a retail ATM with the advanced functions and security of a financial institution cash dispenser.*

INNOVATIVE DESIGN

The striking design and advanced function options of the **5200** make this ATM the ideal choice for bank-branded, high-end retail locations and sites requiring greater security. The **5200** offers a brilliant 12.1-inch TFT LCD monitor with a function key or a touch/function key user interface (Microsoft® Windows® 7 only).

HIGH CAPACITY

The **5200** cash capacity ranges from a single 1,000-note cassette to three 2,000-note cassettes, providing a maximum load of 6,000 notes. Using proven Nautilus Hyosung dispenser technology, the **5200** is the ideal platform for high transaction volume sites.

ENHANCED SECURITY

Security is essential with any ATM and especially for cash dispensers with a large cash capacity. The **5200** offers customers a choice of a UL 291 certified business hours safe with enhanced break-in protection or a heavy-duty Level-1 safe. Enhanced physical protection includes a reinforced cash tray and heavier metal plating. For added intrusion and fraud security, the **5200** offers a camera-ready fascia, optional anti-skim EMV card reader and support for Transport Layer Security (TLS) network encryption protocol.

RELIABILITY

The **5200** can be counted on to stand up to heavy use. The system incorporates Nautilus Hyosung modular component architecture designed for high reliability, quick and easy service and accessibility.

DESIGNED FOR THE FUTURE

The **5200** provides a choice of either an affordable Microsoft® Windows® CE 6.0 operating system running Nautilus Hyosung popular retail application software, or for even greater flexibility, a Microsoft® Windows® 7 platform running the retail application or NDC emulation. The Nautilus Hyosung enhanced retail application enables customers to earn additional revenue from transactions such as Dynamic Currency Conversion (DCC), donations, lottery and surcharge segmentation.The NFC reader option also positions the **5200** for future support of cardless cash withdrawals.
